This document may be used to establish the acceptability of the vehicle for safe use on a highway.

VIN

The purpose of this document is to provide a declaration by a suitably qualified person that the Supplementary Restraint Systems (SRS) and ECUs have been checked and the circuit integrity has been validated. This form is used for the purpose of establishing the condition and operational status of the SRS and the electrical circuits for the purpose of obtaining a Tier 3 Vehicle Identity Inspection Report and Certificate of Roadworthiness. It represents an inspection of the system on the date it is issued.

I, _____ as the representative/manager of the company identified below, which is an Authorised Dealer of the vehicle manufacturer, am authorised to state on its behalf that.

Impact Damaged Vehicle

All components of the SRS are present and correctly installed and the ECU and Related circuitry has been tested and certified operational by an authorised agent of the manufacturer of this vehicle (attach agent's invoice). This may require disassembly or removal of various trim to verify the actual fitment of SRS components and that the wiring has not been tampered with or bypassed.
